

Short Film Casting

Part: Villain

Character Description: Stereotypical mask-wearing bad guys. People of few words, but the few words they do say will make most people run in fear.

Instructions: The audition process will involve submitting two videos. From there we will narrow down the list and possibly arrange in-person meetings to test chemistry before finalizing any casting decisions. Once you have recorded the two videos described below, upload them separately to YouTube as **unlisted** videos (Not public or private). The video links will then be posted in the submission form.

You should name the YouTube videos as follows: Firstname Lastname - Villain Monologue and Firstname Lastname – Villain Laugh *i.e.: Nolan Winter - Villain Monologue*

Below you will see a monologue which you should perform to the best of your ability and with whatever emotions you feel are appropriate. These characters are mostly one-dimensional and are meant to just be stereotypical bad guys.

Your second video will be really short. You should give your best shot at an evil laugh or chuckle. This video doesn't need to be any longer than 20 seconds.

Good luck and reach out to us if you have any questions!

Villain's monologue:

Look at who we finally caught. It's about time too, I almost got tired chasing you around. Good thing I hadn't gotten my workout yet, otherwise I'd have to charge you for your time. So what do you have to say for yourself? You're innocent? Is that so? Wow you must be right, I'll just have to let you go. I just... wow. I've never heard that one before. You must think you're so smart. Well I have news for you. Look who has the upper hand. Not so smart now are you? Time for you to meet my friend the baseball bat. I guess it's lights out for you!
